

Free Pest Control Services for Children With Asthma Living in the Bronx

If a child or youth in your Bronx home has asthma, and if you have cockroaches or mice, our Integrated Pest Management (IPM) program can help you control pests or the conditions that encourage them.

To qualify for the program:

- **You must live in the Bronx.**
- **There must be at least one child or youth (age 17 or younger) diagnosed with asthma living in your home.**
- **Your home must show signs of pests such as cockroaches and mice.**

For more information, contact, **718-508-0643** or **ipm@health.nyc.gov**

For more information, you can also contact **healthyhomesecp@health.nyc.gov** or visit **nyc.gov/health** and search for **pests** or IPM. If you reported pests in your home to your building owner and they have not fixed the problem, call **311**.
