# No-Cost Pest Control Service

for NYC children  
and adolescents  
with asthma

If a child or an adolescent in your home has asthma (with a recent visit to the hospital or an urgent care center) and if you have pests such as roaches or mice in the home, we may be able to help you get rid of the pests safely and effectively.

## Our Services:

- ✓ Comprehensive Pest Control
- ✓ Deep Cleaning
- ✓ Allergen Reduction

## For More Information:

To get started on the path to a pest-free home:

- Speak with your health care provider.
- Email us at [nycreach@health.nyc.gov](mailto:nycreach@health.nyc.gov).
- Call the CABS Health Network Care Management Department at 718-388-0220 and ask about Doc AIM.

## To Qualify:

You must live in NYC.

There must be at least one child or adolescent (age 21 or younger) with asthma living in the home.

You must have a home with roaches or mice.

The child or adolescent must have had recent hospital or urgent care for asthma (either admitted to the hospital or had two emergency department or urgent care center visits within 12 months).

\*Formerly known as Medicaid Together.
